WORK EXPERIENCE

Over the summer I completed a 9-week industry placement at the IT department in the QE hospital in Gateshead. This would include helping nurses and doctors and customers with a device called Nerve Centre. I would go and fix the device if needed. I was also on calls with customers within the IT department talking to customers about their problems with devices such as printers. I had the opportunity to set up monitors as well for a nurse I also had the chance to strip parts Computers and log them into the systems. I had the chance to set up access points using cisco for an important new project for the NHS.

Basic Understanding of Computing – Good familiarity with Microsoft packages and a good basic level of IT literacy

Team player – several years of playing football has help influencesthat more can be achieved by a team working together.

People – Confident and mature, I can communicate with people of all ages.

Communication- Talkative and not shy of talking to people and always helpful.
